

For Advertisement in ADA Website

ADA is looking for vendors who can take up, design, development, procurement, testing, integration, installation, commissioning, maintenance and operation of Shore Based Telemetry Facility (SBTF) at INS Hansa, Goa on a turn key basis to facilitate LCA-Navy Flight testing. Detailed RFP with specification will be provided only to those who are qualified by ADA based on "EOI" and the supporting certificates/ details.

The project will include setting up of the following facilities within one year. Furnished building shall be responsibility of ADA.

- Mobile telemetry station with telemetry equipments and monitoring facility. The mobile telemetry station will support the flight test operation from SBTF and also outstation trails.
- Monitoring room with full-fledged monitoring facility. It shall be capable of functioning independently during out station trails.
- Data storage and retrieval facility for entire flight data generated.
- Optical and satellite link for transferring data between Goa and Bangalore.
- Calibration room, data processing room, and briefing/ conference room
- Offices for Director, Engineers, Flight-test crew, Chief of flight test and supporting staff should be equipped as per requirements specified.
- Secured and controlled access for the building and the systems.
- Networking the entire building of 3000 sq feet.

Accordingly ADA is hereby seeking "Expression of Interest (EOI)" from probable Vendors. Interested Vendors may send their Expression of interest through letter to reach "Senior Manager (Commercial), Aeronautical Development Agency, P B No 1718, Vimanapura Post, Bangalore 560017", within 15 days of advertisement. Vendor qualification requirements should be fulfilled which can be viewed at <http://www.ada.gov.in> **Please indicate the reference on Envelope as "EOI".**

ADA reserves the right to accept or reject any application without assigning reason.
